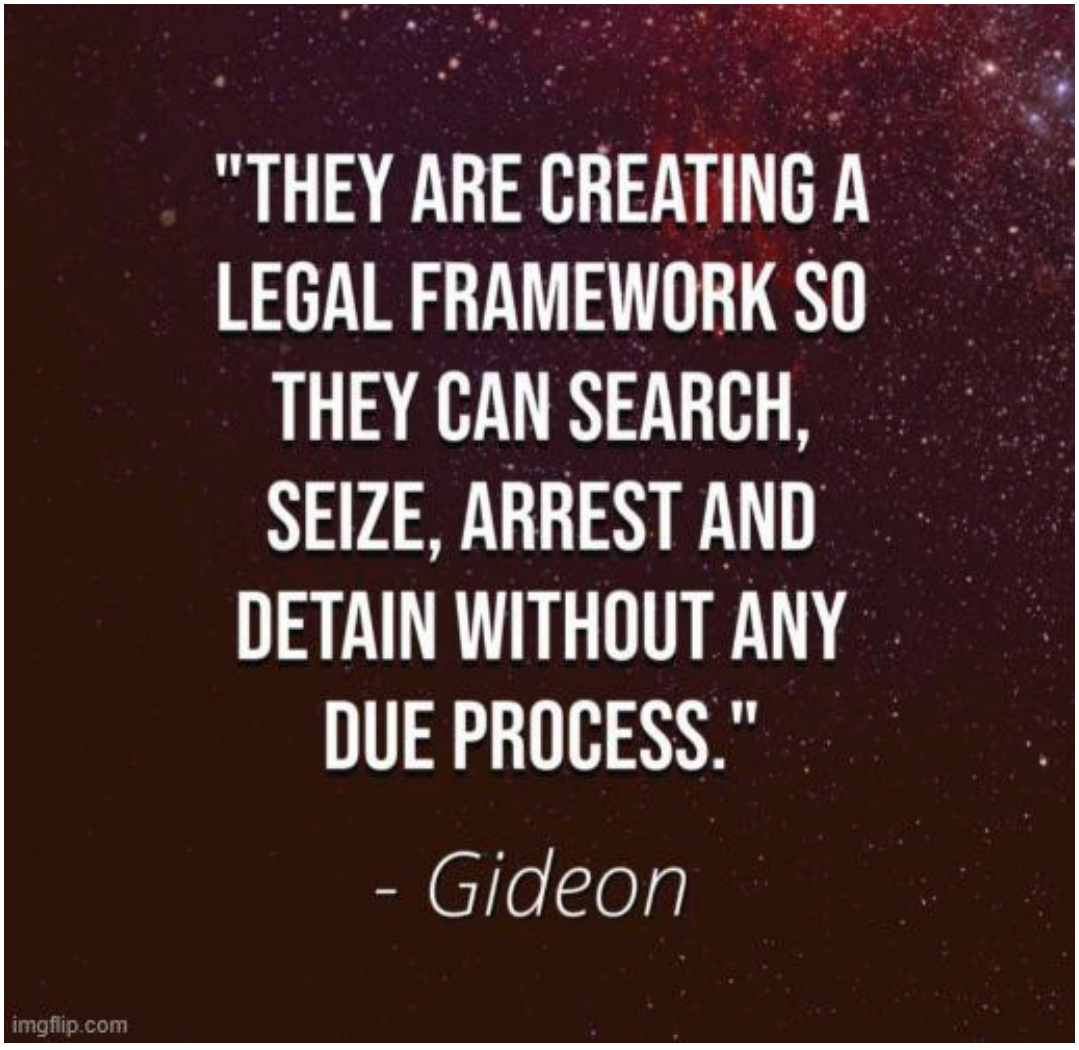
Intel Drop #65 - Terrorism, Immigration & A.I. Soul Capture

"It will be the catalyst that sends the West into a death spiral. The U.S. Dollar is already rapidly losing value. Watch this closely."

Intel Drop #65 - Terrorism, Immigration & A.I. Soul Capture



A quick reminder, all of our articles and Intel Drops can be found on our website at **CBDCIntel.org** and you can follow **Bill's Twitter**, contact Bill personally on his **Telegram (billsweet1)**, follow our **Official Twitter**, our **News Twitter** and

our Telegrams for updates (**Comms**, **Public**, **News** **&** **Chat**). Please bookmark and check our social media accounts weekly for updates.

Note: An **updated FAQ,** our **USDR Pool Program** & our full **Intel Drop link list (#1-65)** has been posted on our website.

A Call To Action: We are asking our readers to *share* this Intel Drop on social media, Twitter / X, Telegram, TikTok and Facebook. We have been censored, shadow-banned and attacked for over two years. Without ***your*** help, ***no one*** would ***find*** our Intel Drops.

Our Team & Our Mission: Learn about **our team & join our efforts** to destroy Obsidian.

Intel Drop #65

The following was collated from intel sent to our team from Gideon. As always, all intel sent by Gideon is edited by Michael for clarity and for obfuscation purposes (see: Adversarial stylometry):

Bill: How are you tonight?

Gideon: ***"I am well, Bill."***

Bill: I'm glad to hear that. It's getting to be pretty routine now that I start our Intel Drops off with various confirmations of your intel, so I think we'll start off there.

Gideon: ***"Please, proceed."***

Bill: First, you've said from day one that Obsidian is based on China's social credit system. You've also said the new "digital Euro" is an Obsidian CBDC module. What ties that together is that Christine Legarde, head of the ECB, literally said that the digital Euro is modeled on the Chinese social credit system in use there. That's pretty significant because it proves they're about to put a social credit CBDC in place.

Gideon: ***"Yes, she has confirmed that. We know what is coming. The cabal knows what is coming. It is the public that appears utterly devoid of any concern or curiosity about these things, which is frustrating."***

Bill: It's very frustrating. Another confirmation is the fact it's being widely reported in mainstream news that ChatGPT and A.I. chat bot users are developing psychosis and mental breakdowns. You've warned repeatedly not to use A.I. and that A.I. itself is a conduit for "entities" or extra-dimensional beings, maybe demonic beings. I think two years ago when you said that it probably seemed far fetched, now it feels like it really could be true.

Gideon: ***"Unfortunately, it is true. I would like to point out that the cases you are speaking of are isolated and the cabal expects them to remain as such."***

Bill: So these cases won't be more widespread?

Gideon: ***"No. The cabal has a plan with the A.I. to take over people's minds and thoughts. Most people will assimilate. Most will not have these side-effects.***

The people who develop psychosis are not adapting to the program, so to speak. They are not good test subjects. Ironically, you could argue they may be 'too sane' for the program to work on them, and the result is they go insane as the insidious assimilation process proceeds.

Everyone else is expected to assimilate into this new world and not see what is happening to themselves or anyone around them."

Bill: What do you mean by "assimilate"?

Gideon: ***"The cabal wants people completely connected and reliant on Obsidian's A.I. by 2030. Meaning, it will be part of everyone's daily life. You will talk to your A.I., consult it, ask it questions, much more than the older iterations, like Siri or Alexa. It will become your friend, your partner, romantic interest, it might even help you start a business or offer therapy to help you through a tough time.***

Most people will not likely descend into psychosis, they will just transition to human beings who have given up their free will, their minds and sovereignty to A.I. without thinking it is a problem. It will become normalized. It is about the cabal's plan to capture and control our very souls with A.I. and Obsidian."

Bill: You mentioned Christians to me before, how they're going to be compromised. I don't see how Christians would allow A.I. into their lives like that.

Gideon: ***"The church is corrupt, Bill, particularly the protestants in America are captured. It would not surprise me if a number of pastors and church leaders find a way to approve of an A.I. that might be structured around Christianity."***

Bill: Almost like what Mike Adams is doing with his Enoch A.I.? He's a Christian. I can't believe he's actually created his own A.I.

Gideon: ***"That is a good example. We will see more of that from the Alternative Media personalities or religious leaders, specially-adapted A.I. systems for truth-seekers or believers. It is, of course, an abomination, evil, not of God and should be avoided at all costs."***

Bill: I've been Tweeting about RFK Jr.'s insane goal of every American wearing a "wearable", a type of device that monitors your health, heart rate, and so on. What people don't realize is some of those things are not just watches or things you put on your wrist, they're also tattoos, which reminds me of the Mark. What do you think of his plan and the U.S. Government's push for this?

Gideon: ***"It is highly troubling, but in line with the cabal's goals. I believe they want wearables popularized because it does increase the efficacy of the A.I.'s ability to interact with the nano tech, as well.***

All biological data will be uploaded directly to the cloud and analyzed by Obsidian, making it one of many data points that comprise one's social score. If you eat too much meat, expect your score to be reduced. If you are not eating the approved foods, expect your score to be reduced. If you are taking certain natural supplements, expect your score to be reduced.

Once it is in place, RFK Jr. will be gone and another cabalist will be in place to monitor it, especially if Democrats are elected going forward, provided America is still standing by 2030. I expect by then some kind of North American Union will be formed to reorganize the rubble of what is left over after certain events to come."

Bill: Incredible. Now, there's a variety of things we've planned to discuss. There's so many events happening week by week. We talked about doing more Intel Drops, is that possible?

Gideon: ***"I spoke to Michael, we may begin releasing an Intel Bulletin once per week with a summary of news items and updates."***

Bill: I think that's good, there's just a lot of things happening all at once, and I don't want us to get behind on things.

Gideon: ***"We will not fall behind. It is important to remember the gatekeepers pump out a constant flow of material, distracting material, rather than quality intel. We are not part of that."***

Bill: One thing I notice about the gatekeepers, like you said, it's constant, they post constantly, they put up videos every other day, it's a deluge of stuff, but a lot of it's just empty, opinion, clickbait, speculation, sometimes completely made up, fake news, or even A.I. generated. Half of it's just garbage.

Gideon: ***"The cabal's media agenda is effective because they overwhelm the airwaves. They overwhelm people. They drown out the smaller voices they do not control. It is unfortunate, but it is the reality we face."***

Bill: We're going to update our gatekeeper list, I think it's going to be quite interesting, what's our ETA on that?

Gideon: ***"Probably within one week. I received some more names from suggestions that were emailed to us, and I want to get a few of them checked."***

Bill: There's a lot of pretty decent people reporting on what seems to be the truth, but you've told me that's part of the trick. Please explain.

Gideon: ***"There are cabal gatekeepers, who are Sovereigns in Obsidian, whose actual mission given to them by the cabal is to tell the truth, or a lot of the truth. That is their job. There is no great agenda beyond that, they are actually truth-tellers, but they are also cabalists.***

So, why would the cabal do this? Because they want to capture people. They want to be in control when the time comes. They want those people in their stead, in their corral. They will change their tune once Obsidian is online, maybe to support it or gate-keep certain criticisms. It is very subtle and clever how they work.

So, that is why I am very against these people, and more will be exposed with the update we will release."

Bill: We'll never support anything the cabal is doing or shift or change our tune, and we never have up to this point. I've seen gatekeepers do things like that, go from, "CBDC is bad" to "Well, this Stablecoin thing Trump is doing is fine", or they just ignore things like they never happened. That's how they work, you're right, little shifts like that.

Gideon: ***"Precisely."***

Bill: I wanted to briefly ask you about an update on the Iran and Israel conflict. You last reported there would be a ceasefire, a cessation, and that did happen. You said we were in an early phase, and that this had only just begun. Do you still believe that and what do you see coming?

Gideon: ***"I do believe that. This is the first step, first phase, first volley. The stage has been set, so to speak. Both countries exchanged fire and controversies. The so-called Iranian nuclear program was not destroyed, that is the consensus, leaving open room for Israel to have justification to strike again.***

Now, I expect terrorism and a false flag. I expect this within the next two months, though I could see it more likely the terrorism starting off in the Fall.

You will see bloody bombings and attacks in public places, fairly severe and deadly events. Iran will be blamed, but not all of it will be Iran's doing, Mossad and the U.S. will be involved.

After this wave of attacks, the world reacts and the U.S. and Israel will find the resolve to truly attack Iran with real force. This is when the escalation begins. If this scenario does not happen, I will be surprised, because all of my sources are warning of this."

Bill: Do you expect a lot of casualties from these attacks?

Gideon: ***"I do, and they could begin at any time, but my best intel says they are not quite ready yet."***

Bill: I feel like Israel's been quiet, everything quieted down. What's Israel doing?

Gideon: ***"Preparing, plotting and planning. The U.S. is also re-arming Israel right now."***

Bill: You also talked about the ICE raids and how they're really there to go after Americans, you said this a few times in the past, and they sure are. Americans are being detained, citizens are being detained. It's madness, and I feel like this is actually another confirmation of your intel because you called this many months in advance in previous Intel Drops.

Gideon: ***"Yes, the immigration effort is a secret program to purge certain Americans, and they are going to actually create a legal framework so they can search, seize, arrest and detain without any due process and remove Constitutional protections under the guise of immigration enforcement.***

This will directly tie into how they will act in enforcement toward Restricted and Quarantined classes in Obsidian. In fact, it is all in preparation for Obsidian."

Bill: That actually makes perfect sense.

Gideon: ***"It is a cloaked program. They say they are doing one thing, but the program is for another purpose. We see the Trump Administration doing this with many policies. Gatekeepers like Alex Jones praise the immigration moves and fail to point out very suspicious things are going on instead.***

You could argue Biden created an immigration problem so Trump could 'solve' the problem with a 'solution', but the solution is really to target Americans and prepare for Obsidian."

Bill: Problem, reaction, solution. I'm also seeing an uptick in targeting antisemites for VISA removal. We talked about that a long time ago. If I recall correctly, you said they would let antisemitism flourish for a time and it certainly has. If I can find your exact quote on that, I'll post it on Twitter.

Gideon: ***"Yes, it has been allowed, reaching a high point during the Israel and Iran war, whereby we saw an explosion of so-called antisemitic and anti-Israel views, especially on TikTok and Twitter.***

I said in the past this would be allowed, so that later a crackdown could take place and all of the targets could be identified. They are tracking and identifying everyone who has ever expressed antisemitic or anti-Israel views. These people are now Restricted or Quarantined class in Obsidian, and it is in the millions.

Watch for legal measures to escalate initially toward immigrants who have expressed these views, then onto Americans who have."

Bill: Israel has committed a lot of horrible deeds, no one should be punished for expressing a viewpoint or exposing Israel's crimes.

Gideon: ***"Of course not. We are entering the land of the dystopian to criminalize speech against Israel, but as I have also predicted, there will be an eventual backlash and Israel may end up destroyed, and a false light one world government may rise up to destroy the current order of Jewry and Zionism ruling the West."***

Bill: More of a longer outlook on all this, maybe by 2030?

Gideon: ***"Around that time, yes. A.I. will orchestrate it. Nothing is as it seems. If Israel is defeated, do not assume humanity has won."***

Bill: I want to get to some of this new intel, which includes a source you've been speaking to and something the whistle blowers overheard at their work. Maybe you can get into that?

Gideon: "*I can. First, I continue to be given information from a very reliable source about upcoming weather events that the cabal is going to manufacture. This pertains to the 2026 event I have spoken of. I have new intel, and it appears this event is man-made and it is a type of weather event, though they can also create earthquakes.*

They are going to cause weather havoc and blame it on climate change, because they believe the climate change narrative is failing, which it is."

Bill: This would be like what happened with the Turkey earthquake, Maui fires and other examples?

Gideon: ***"Yes, but worse."***

Bill: I feel like weather modification is getting more obvious, it's more out of control, so I can see how this could be legit intel.

Gideon: ***"I am treating it as such, and will prepare our team for it."***

Bill: What about what the whistle blowers overheard?

Gideon: ***"I must obfuscate this intel so they are not exposed, since it involves specifics at their work and the Obsidian surveillance team could read this and attempt to triangulate the story with existing, past data. So, I am going to give you a story but with the relevant facts you need to know.***

During a group meeting, the whistle blowers overheard a conversation among higher-up supervisors who oversee a different part of Obsidian, the one pertaining to the hierarchical structure of Sovereign classes. This is something our team will be familiar with.

During this conversation, the supervisors spoke about various keys, passwords and phrases needed to bypass restrictions in the astral plane, in the afterlife. They spoke of the system on the other side, the order there, the cabal order, and how to get out of certain areas, restricted areas, as a Sovereign you will need a high tier rank within Obsidian and you have to know certain phrases to speak to guards or 'gates' or 'gateways'.

They said the supervisors, who are also Sovereigns, were worried their own tiers within Obsidian were not high enough to receive the most coveted keys or phrases, and they were focused on that and quite worried about it, discussing solutions and the need to acquire more USDR.

What this tells us is that Obsidian is truly a system that extends beyond this life, and that in the next life there is a society and structure in place similar to Earth, but more draconian, structured and controlled. There also appears to be critical keywords or phrases one must know to bypass certain things or areas.

So, this is something I am exploring. One thing I came across is that this has a precedent in the old Gnostic texts, such as the Apocryphon of John, where cosmic regions can only be bypassed [or entered] with sacred knowledge, with seals, signs, names, words, phrases, or you cannot pass through them. My research on this has only begun, so I cannot offer further insight."

Bill: All of that alone is incredible insight, thank you. It's remarkable. They overheard this conversation and obviously felt it was highly relevant. What was their take on it?

Gideon: ***"They believe Obsidian's hierarchy is critically important to understand and also for our team to infiltrate. They told me if we are going to defeat this, we will need team members in key positions and with the right knowledge of how Obsidian works, and they intend to provide us as much information as they can gather to us. It is a bit more complex than simply having Sovereign status***

alone, there is a lot to this structure they are building, but we have good access and we will be prepared."

Bill: This really gets into spiritual matters beyond the norm, I wonder if readers will even accept this. I mean, it's hard to believe, but I'm a spiritual person and I do believe we're in a battle between good and evil, light and dark. I think it's naive to think the cabal's grasp doesn't go beyond the Earth or this life.

Gideon: ***"It is incredibly naive to believe that. We are spiritual beings and this is a spiritual journey, this life, and it does not end with death at all. There is a spiritual battle at play. Obsidian and Agenda 2030 are spiritual projects by the cabal, evil projects, that have as much to do with the soul as anything else. And evil does not just reside on Earth, it resides in the afterlife as well."***

Bill: We'll revisit this again, maybe in a *Cosmic Rules Are About To Change* Intel Drop entry?

Gideon: ***"I like would to do that."***

Bill: I'm looking at my notes here, we had another incident in our Telegram group which we talked about the other night. I felt an agent attacked us, it had been some time since we'd seen one. What's your assessment of the incident?

Gideon: ***"I reviewed all of the messages you sent me, and the person in question did appear to engage in classic agent tactics that you identified. They joined, engaged in a friendly manner, infiltrated, private messaged other members, then when questions were asked and suspicions raised, they unleashed a series of vicious, pre-meditated attacks against our team that you had to delete. This is the M.O. of an agent.***

The cabal is keeping an eye on us, and must have felt the need to cause some disruption. It could be for a variety of reasons. It could be the group, which is about 600 members strong, has been posting good information, which you tell me it has, and they wanted to disrupt that."

Bill: For sure, the group's been really strong lately, I felt, so it's interesting an attack just came in to try to destabilize things. It caused a lot of problems for about a week, what this person was doing. Should be ok for now, but it's obvious we're still on the cabal's radar.

Gideon: ***"Everything we do is monitored by the cabal."***

Bill: I did have someone email me who said our intel is wrong because Obsidian isn't fully online yet. You've worked with the whistle blowers through all of this, do they feel things have been delayed?

Gideon: ***"That is a valid question. They have said there have been some delays, but to them, this is not unusual. They describe their work environment, their supervisors and the internal comms and memos they receive as having an outlook toward perfectionism, updates and additions of new modules. They do not believe the cabal is trying to rush the project.***

They also said a number of new innovations, especially related to A.I., have dramatically upgraded Obsidian's capabilities. They said if it had been released in 2024, it would have been premature at the time, and world events at the time had not allowed for CBDCs to be fully introduced.

From their point of view, what the cabal is doing is precise, methodical and professional in their approach, but also very evil.

There has also been a need to get the United States upgraded technologically, which I have spoken of, and the U.S. tech oligarchs' role is to do just that so Obsidian can function there. It can already work perfectly fine in Europe, most of Asia, Canada and Australia, but it is not ready for the U.S. They want the entire West ready before it is fully put online, then second and third world countries will follow suit.

We see everything is unfolding that we have predicted and is in line with what the whistle blowers have provided me, it simply did not happen as quickly. This is a blessing, because it gives us time to build our team, prepare and understand the cabal better so we can fight it later on."

Bill: They also thought the cabal had a desire to continue USDR acquisition?

Gideon: ***"Yes. I cannot speak to why, but they felt there has been a lot of development with the higher tiers within Obsidian. They said the cabal had been developing an extensive hierarchy structure that was not as much in place a few years ago, so there is a lot of focus on developing that, and USDR ties in closely with the tier structure."***

Bill: Someone said to me that maybe it won't come online, maybe there won't be CBDCs, maybe none of this will happen. I find that absurd, but please address that.

Gideon: ***"It will happen, and it is happening. The European Central Bank has already announced it, and the U.S. Congress has already made moves toward it with the GENIUS Act. China already has Obsidian in place. Countless countries have CBDC pilot programs. Countless countries are pushing digital I.D. measures that are invasive and increasing the surveillance state, in preparation for Obsidian.***

There is also virtually zero resistance by the general public against any of this, so there is absolute no reason it will not happen."

Bill: I feel like everything is leading up to a very big moment, something very big is going to happen, I don't know if later this year, 2026, maybe even 2027, but it's going to happen. We're not going to still be here in five years in the same world, we're not.

Gideon: ***"I strongly agree with that. We are seeing things we have never seen before, and activities of gatekeeping and psy ops on a grand scale."***

Bill: Your guide said something to you, I was wondering if you could share that, about service to others.

Gideon: ***"Yes, she reminded me in everyday life we still need to care for others. We need to be helpful to our neighbors. She said as people become more suspicious and distant, as A.I. actually destroys human connection and separates people, we have to fight against this.***

She said we must not lose our humanity in all of this, we must still act with kindness and love toward others, and if we can, try to warn them to what is happening.

She emphasized this to me greatly, because she is seeing changes in the young people. As you know, she works with children, and she warned me the phones and devices they are using are causing serious problems, the children are becoming brainwashed and corrupted by them. She said A.I. will accelerate it.

She said we have to be strong to help these children out of this if we can, if we have any influence, we have to guide them. Her message helped me realign my priorities and my perspective a little bit, which I thanked her for, and I am glad I can share that here."

Bill: Very good insight and advice, thank you. I'm going through my notes, I'll just rapid-fire a few questions, one by one, is that ok?

Gideon: ***"Yes, go ahead."***

Bill: We're seeing stories that A.I. can predict our thoughts and actions. Do you agree or confirm this?

Gideon: ***"I do. One hundred percent it can and will, within certain limitations. This is why if you allow A.I. into your home, your life, provide it with your personal story or details, it can create a personality profile. This is an actual module within Obsidian being developed. Once the cabal has this in place, it can predict what you will do out to one to two weeks of behavior and actions. The complexity of the module is astounding, in fact."***

Bill: I was reading something talking about how the E.U. can just randomly target people and close their bank accounts and they're already doing this. Is the E.U. a police state?

Gideon: ***"Without any question, yes, it is. This is why the transition to the digital Euro and social credit, which will eventually be Obsidian and USDR, will***

probably be seamless there."

Bill: There's speculation China is about to de-couple from the Dollar and get other countries to join a BRICS-currency union. Is this on the horizon?

Gideon: ***"I believe strongly so, and it will be the catalyst that sends the West into a death spiral. The U.S. Dollar is already rapidly losing value. Watch this closely. Fiat has to collapse and will collapse eventually, so there are trigger events to accelerate that."***

Bill: We spoke on this, just to confirm, the A.I. the public is seeing is how many years behind what the cabal has?

Gideon: ***"The cabal's A.I. is 10 years ahead of what the public is being exposed to right now. Obsidian contains all of the most advanced A.I., but this will never really be revealed to the public, it will just operate behind the scenes."***

Bill: I saw someone was really mad about our team and the antidote. They said something like, "You have to join their team to get the antidote? That's bullocks," and they were upset. Please explain why this is dead wrong and that we're not trying to keep the antidote to ourselves.

Gideon: ***"Let me be crystal clear, we are not gatekeeping the antidote. We only have access to it because of the whistle blowers and steps they have taken to help us. To get the antidote, you have to have the whistle blowers help you change your status in the Obsidian software to Sovereign status, and the only way to do that is through our team.***

Why must it be done through our team? It is very simple why that it is. It is because the whistle blowers are not going to help random people who ask for it, since they could be agents. The whistle blowers could easily be exposed if we did not have a screening process and the compartmentalization and security measures I have put in place to protect them. Otherwise, agents would attempt to infiltrate and try to find out who the whistle blowers are so they can be exposed, apprehended by Obsidian security and dealt with, probably with torture and then death, to be frank.

Our team is just a conduit to make it possible to do that, not some demand or requirement we created to benefit ourselves. There is no other way to get the antidote than this method. It is not our choice. We have to work within the reality we are dealing with, and that is the fact Obsidian is a classified project and a threat to all of humanity that we are blessed, by the grace of God, to have any chance or hope of defeating due to the risks the whistle blowers have taken."

Bill: Thank you for explaining that. It pisses me off when people don't bother to read or grasp something, they just knee-jerk react to things. That leads to my next question, is adult ADD an epidemic? I see it everywhere, no one can read and pay attention to anything.

Gideon: ***"ADD is medical crisis. The cabal wants people overwhelmed, distracted, confused, unable to focus. It is a health issue, because it begins with vaccines and chemicals in the food supply."***

Bill: Alright, it seems like ADD just leads people to not be able to process information easily, they react emotionally, they can't focus or pay attention or read or process anything, they're all over the map. It's definitely a serious problem.

Gideon: ***"It is a tremendous issue, and it is why most media is rapid-fire and geared toward short-attention spans."***

Bill: One last thing, I had another person say something ridiculous, that how you speak is also how Michael writes. We've had a disclaimer about Stylometry posted on every Intel Drop, I guess people don't read it, once again, no one bothers to read anything. Maybe you can explain it again.

Gideon: ***"Yes, the use of stylometry or adversarial stylometry is critical in protecting my identity. Michael has improved upon it over time, in terms of editing my words and our Intel Drops, as our earlier Intel Drops were not as refined in this area, but they were obfuscated just enough that my written style still cannot be matched with my personal past writing history.***

People need to understand that writing is like a fingerprint. If you have any bulk of the written word in your own personal style present on the Internet over the years, rest assured, it is in Obsidian and you are paired with it. Most people do, especially through their use of Facebook.

My writing, on the other hand, is contained in government databases from my intelligence work over the years, where I have a professional but unique style, and we must obfuscate that for these Intel Drops, otherwise I would be potentially exposed and the cabal would apprehend me."

Bill: Michael uses it in his own writing, too. I'm the only one who can express himself a little more freely, mostly on my Twitter. I still have to use some techniques, too, but that's because I never had a lot of stuff I've written posted online. I never used Facebook, for example. It's just something everyone might want to look into, we've updated the link so people can learn more.

Gideon: ***"Yes, it something most people completely overlook. It is one of many data points Obsidian uses to evaluate and track people."***

Bill: We'll bring things to a close. Do you have any final words for those reading?

Gideon: ***"Yes, I want to remind readers we do have a mission here and a plan. We have a plan to defeat the cabal and this evil that is coming. I do not want that to get lost here, that is our primary focus."***

Bill: This has been a really informative discussion, but a lot wasn't included because you need it edited. Do you have a time frame on when we can get those conversations out?

Gideon: ***"I have instructed Michael to edit some of our other, recent conversations so they can be posted, possibly as a Part 2 entry in the next week. I still have to thoroughly review all of our discussions to ensure nothing is ever released that would expose our team or compromise us in any way. The cabal reads and analyses every Intel Drop carefully for these things, things that might reveal my identity, that of the whistle blowers or anyone on our team. So, we are careful and restrained in what we release publicly."***

Bill: Ok, I just miss some of the older Intel Drops where we seemed to discuss things in greater detail, we got away from that, but I know why, for security reasons.

Gideon: ***"We did. I will do my best to give Michael more to work with."***

Bill: Very good, we'll talk again soon then.

Gideon: ***"We will. God bless and be safe as always, Bill."***

Bill: You too, goodnight.

Our Team & Our Mission: Learn about **our team & join our efforts** to destroy Obsidian.

Please ***share*** this article, so we can keep spreading the word. **Join our Telegrams** (group, announcements, news, spiritual discussion). Join **Bill's Twitter here, and our official We Are Sovereign Twitter here. Our official email** is securecommssov@proton.me.

Update: We continue to see serious problems with email. Emails like MSN, Me, iCloud, Outlook, AOL, Gmail, Gmx, Yahoo, Hotmail, Comcast and many others routinely BLOCK and CENSOR our emails. These email providers are also known to read your emails and offer *no* security at all. No one should be using them, but many people who contact us are using them.

We recommend opening an anonymous account using Proton.me, Hushmail.com, Tutanota.com. These providers are end to end encrypted, and have proven they do not block our emails.

Update: If you have recently found our information, we recommend reading all of our posts going back to July of 2022, which have covered a multitude of issues in detail. You can find an introductory article here, our *new* Intel Drops here, and our *older* (censored) Intel Drops and (censored) website backed-up here via PDF

(Telegram link for download), Google Drive **PDF (Intel Drop #1 starts at page 105)** or here via the Wayback Machine.

Note: We also recommend reading our Cosmic Rules Are About To Change series of Intel Drops for the full context of what is transpiring from a spiritual perspective (Part 1, Part 2, Part 3, Part 4, Part 5 & Part 6).
